

# WINDOW FURNISHINGS GUIDE

# Window Furnishings

Window furnishings can make a huge difference to your home's comfort, efficiency, and style. With a little friendly guidance, choosing the right window furnishings for your home can be simple.

We offer a great selection of furnishings suitable to all window styles. Discover more about our best selling products in this guide.

# Our **PRODUCT RANGE**

We are certain to have the solution you are looking for. Our extensive range of high quality, fashionable and cost effective furnishings include:

## ROLLER BLINDS

are perfect for adding simple style to your home. Easy to operate, they are the ultimate functional blind, and can be personalised depending on your colour selection.

Floorworld offers a diverse selection of fabrics to provide your desired amount of light control. Roller blinds allow protection from the harmful sun, and assists with insulation. Motorised options are available.

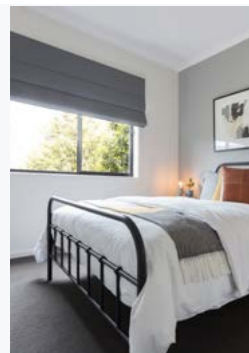

## SHUTTERS

represent the ultimate in style, functionality and versatility. They are long-lasting and add value to your home. Admire them from both inside and out. Shutters assist in controlling light, privacy and temperature all year round.

## CURTAINS

are an excellent option when looking to soften a room and provide privacy and darkness. Our curtains are all custom made and can be personalised by heading style, fabric and a range of beautiful colours.

## ROMAN BLINDS

add warmth and sophistication to your home. The fabrics in our range give a luxurious feel to your windows, and are ideal if you are looking for a fashionable alternative to curtains.

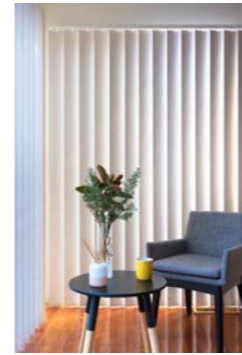

With their complete blackout capability, Roman blinds are ideal for bedrooms and areas which need to be kept dark.

## VENETIAN BLINDS

are one of the world's most popular and desired window coverings.

They are versatile and stylish, and represent an extremely functional system of controlling light, privacy, ventilation and insulation.

## VERTICAL BLINDS

are a versatile and practical window treatment option. They consist of vertical slats that can be adjusted to control light and privacy, making them ideal for large windows and sliding glass doors. Their easy maintenance and durability make them a popular choice.

## PELMETS

stylistically finish off a window. When paired with a window furnishing like a curtain or roller blind, they neatly hide away componentry. Functionally, they improve solar efficiency and light control in your home, reducing your power bills and the demand on the environment.

## PANEL GLIDES

are an excellent space-saving solution, especially for areas with limited room. Since the panels slide parallel to the window, they don't protrude into the living space when opened, allowing for unobstructed views and a clean, streamlined look.

## CELLULAR BLINDS

offer numerous benefits that make them a popular choice. Their unique cell-like structure provides excellent insulation, which helps to reduce energy costs, as well as enhanced sound absorption meaning a quieter indoor environment. Providing superior light control and privacy, with options ranging from sheer to blackout fabrics, they are extremely easy to operate and a versatile and practical window treatment solution.

## How we can assist you with **WINDOW FURNISHINGS**

Let us guide you through the process of selecting window furnishings. To get started simply follow these four steps:

- 1** Browse this guide to help identify the styles of window furnishings available and cross check our suggestions against your needs.
- 2** Fill in the 'My Design Ideas' page at the back of this guide, outlining the type of furnishings that you would like in each room.
- 3** Bring your ideas to us for expert design advice and to finalise your product, fabric and colour selections.
- 4** Add window furnishings to your flooring selections and let us take care of everything

# ROOM GUIDE

Prepare yourself with these handy tips & suggestions.

- 1** What is the overall style you are looking to achieve?
- 2** How does the style of your home vary from room to room, and how should your window furnishings reflect that?
- 3** Which rooms in your home have direct sun, and what level of blackout do they require?
- 4** Where in the home would you like to create the highest level of privacy?
- 5** Would motorised blinds make life easier? \*  
\*Battery Operated

## Kitchen

The kitchen is where a family comes together: cooking, eating and socialising. Windows in this space can be tricky if they are located above a cooktop or a sink.

Furnishings above a cooktop are not recommended. Consider a waterproof shutter if splashing is a concern near the sink. Alternatively roller blinds and venetians can be a versatile solution for this space.

# Living & Dining

Your living and dining rooms provide an opportunity to really dress up your windows. Curtains in sheer or blockout fabric are an elegant addition. These furnishings can soften a space and create comfort. Sheer curtains will reduce glare on televisions and can be mounted high above the window to heighten the appearance of the room.

# Theatre & Study

Your home theatre sets the scene for a magical night in! Create the mood by adding blackout curtains and be brave with colour.

In contrast, your study needs to provide a light and airy feel to facilitate long days at the desk. Great options are shutters, sheer curtains or roller blinds. You might like to add multiple furnishings to provide privacy at night.

## Bedrooms

A key consideration in your bedroom is privacy both during the day and at night. A good blackout for night will assist with sleep and relaxation. Some beautiful sheer curtains will add softness and some simple roller blinds will blackout the light in the mornings! Other alternatives are shutters, and double curtains.

## Ensuite, Bathroom & WC

Privacy is an important consideration in your bathrooms. Dual roller blinds with both a light filtering and blockout fabric will provide light during the day and ensure privacy at night.

Venetian blinds or shutters allow you to angle the blades and create an adjustable level of privacy and natural light. Waterproof options are available to combat condensation.

## Floorworld Simple Selection Process

It's time to put pen to paper and work out exactly what you need.

Use the 'My Design Ideas' form on the following pages to record your ideas, then visit us in store.
